Bristol Friday Mar. 28-1851

My dear Mr. May.

I will not allow another mail to go to the U.S. without sending a line tho' I am not able to write much to day, having several things to attend to, & not being over-gifted with strength & mind I am writing now (for security from interruption & for quiet) in bed. I could not find time or strength last week to write to you in addition to other pressing cares & anxieties — chiefly however, of your friends — & Anti-slavery ones.

What I especially wish to communicate with you about now, is this. In the article in the N. Advertiser, I referred to Dr. Dewey's remarks, which I quoted from the Mrs Thomas & repeated to minute report you wrote to me of what he said, not having then seen any account of his in print; but I always suspicion the most implicit confidence repose in your accuracy. Already, has appeared that article exhibited it's ugly power & Mrs Thomas's kindly, who has been

in the U.S. cut out the article from the
(Mr. Adv & sent it to Harriet Lupton, thinking
her family might have read the paper to
her (Mrs. M.) Miss Lupton, struck by
that the I. might have had something to
do with this paper in the Mr. Adv, to remit
the slip to us with the following note ap..
handed to Dr Dewey's pew in church
preferring to read his Letter &c &c

"A wicked invention." Dr D. said nothing of the kind. A
"gentleman is now in London, who was one of the party
"who got up the Meeting. Mr Marshall dined with him
"last Wednesday & was assured that no such declara-
"tion took place."

Mrs M.'s authority for this positive
denial appears to have been a Mr. Dodge
lately arrived in the St Lawrence with
charge of articles for the Exhibition, who,
I suppose is a Unitr & at least a great
opponent to the "Hyphen Law."

As far as I can understand Dr D. has at
least 3 times given some public expression
of his opinion. You account respon-
ds to a lecture at Waltham: that alluded
to in the "Anl. Report, of the Mass. G.S." Queen
comes applies to the meeting, a lecture a report in the "Traveller"
at the "Fed Mercantile Assn" of which you say-
& I have also sent a notice in the Liberator which

the illustration of his sentiments by the lucky
hitherto case of sending his own family into
slavery is not brought forward — In the
last Lib^r I have (Mar: 7th) there is
however a report extracted from the
Natchez by a "Grace Green wood" of an
address of Dr Dr' at Lynn, where he is
affected to have said that, if required in
duty to the Cause, he would even "send his
own brother or child back to slavery."

I cannot then doubt for an instant
of his having declared himself to this
effect, but I shall be very glad if you
are able to confirm the utterance of the
precise words as I gave them in the Ms.
address — It is not unlikely an Unitarian
body of the Ayes" in May may say
something on the subject.

The article in the Ms. Adv^r has given
me the length & breadth of the land. I
was very desirous for to publish a statement
of the purport of the Conditions among
to be extensively formed upon the reading

public. I send two copies of the pamphlet
& they have been distributed with care &
selection. The Brit. Banner (D. Campbell)
of the writer, (& I probably not very heartily,
but unwilling to lag behind its "opposition
contemporary") sends much of it to its
numerous readers. How many Irish
civil pastors may have obtained some
all of it, I know not, but I subjoin the
name from those I chance to know of -

I sent a Br. Banner to 21 Cornhill -
I would let you have a list of the students
that were sent to your countrymen as
Christian friends, to whom others were op-

Since then, with Mrs Chapin's agency
in respect to newspaper bills, I have
written an article named "Clerical
Teachings on Slavery", and am not
without hopes that it may be inserted
in to day's London, Standard of Freedom
& if so, I have directed a copy to be sent
to night from London for you at Coutts
We, shall not know till to-morrow if they
Cowell, the Ld., has inserted it -
My chief object in drawing up this

MS. B. L. 6 v. 14, p. 29

2/ paper was, to make extensive use of it as a little manual for future circulation, it being edited from a London basis giving it a weight that no provincial journal, & no private publication could put to it. My daughter & a visit at "Independent" Rockhill gave Lady Sir T. to the sensible "Brist & Clifton & Ladies G.S. Soc" (a society now seeing how shamefully it has been in its activity & ignorance by [illegible] feeble, & gradually emancipating itself from the influence of its worthless "Parent") have contrived to get hoisted by this Sir? a Resolution which we had prepared with great care, calling on Ministers who will attend May Meeting in London to bring the question before their respective bodies. Mrs Mason says the "Dumb dogs" are so hardened it will be of no avail: we think differently; & believe pressure from without may be sufficiently applied at least to make the Mutes not comfortable in their silence.— We mean to send a copy

to all A. L. societies, and Rebt from
adrain by the B. & F. Lee, & to get them
to stimulate their ministers by
passing a similar Resolution.

Now if we are fortunate in having
the "Clerical Teaching" printed in
a London paper this week or the
next, we mean to insert the slip a
copy, with each copy of the Resolution
sent about, & we are vain enough to
think this little document may
be a useful brief for the Ministers.

A hundred subjects crowd on my mind
to write about: but I determined to say
now before I lose, what was next upon
hand, & to which I shall take first
chance a wkly as practicable.

I have been more hearty for the
last 10 or 12 days & never so early
passing any day without regret at the
unfinished work (correspondence) I have
been compelled to leave - Do not blame
suppose that because I write from bed, or

to save myself trouble about dressing,
that I am materially worse. When am
here fine weather (which has long been
absent) I can get out again, I expect to
be much better. I have no reason to
apprehend having any serious, or any
organic disease; you will understand
my condition better by my saying that
I feel myself, in consequence of much
delicate health, to be 75 instead of 60.

I have written as to this point with
at stopping; & as it is now near noon
I must leave my couch of Cyprus &-
altogether, I am in better health than
when I last wrote to you

One of my regrets at this mo-
ment is, that I cannot tell you how
interested we have been in your late
letters, & in the various Relicts sent
& how thankful for your kind rec.
lections of us in sending them Mrs. Selina.

mark & Mr. Webb Abby also sent us your
letter to him & we were struck &
touched by your remarks upon the
isolation of Unitarians in (London) in
this country. The manner in which
my daughter & I, dreaded Unitarians, have
had ways opened to us for influencing &
informing & Evil attendor bodies in
~~this country~~ Gt. Britain in the Slavery
Question, is really curious. Mrs. Prescott
thinks the
ideas press is my medium;— an old, & to English
Society has, affiliated with the "B. & F. A.-S. Soc'y." my daughters.

We wrote fully to Paris yesterday
& sent our friends instructions & all
English A.-S. politics. It was desirable
for them to know before they come to
London in May.

My daughter will be able to write a
little so I will conclude.. Shall be
heard from in Boston! & I
trust Mr. Garrison's letter? Love Yours J. Blanchard

MS. B. L. 6 v. 14, p. 29
